Welcome Remarks

9:30AM - 9:40AM

David Cao | *Founder & CEO*

F50

David is a pioneer, believer, and a passionate leader of entrepreneurship in Silicon Valley. He has founded several companies in the valley and also created Silicon Valley Entrepreneurs & Startups, the world's largest entrepreneur community, Silicon Valley Android Developers, the largest Android F2F community, and a variety of other grassroot communities in Silicon Valley.

LimeBike

IoT

limebike.com**LIMEBIKE**
Your ride anytime.

Summary

LimeBike is a dock-less bike share system that aims to revolutionize urban mobility and solve the first and last mile transportation challenges. LimeBike aims to revolutionize mobility in cities and campuses by empowering residents with cleaner, more efficient, and affordable transportation options that improve urban sustainability. By systematically deploying thousands of smart-bikes, enabled with GPS, wireless technology, and self-locks, they will dramatically improve urban mobility by making the first and last mile faster, cheaper, and healthier.

Funding

LimeBike raised \$12M of Series A funding led by Andreessen Horowitz and joined by IDG Ventures, DCM Ventures, and others.

Speaker Biography

**Brad
Bao**

Co-Founder & Chairman

Brad Bao is the Co-Founder and Chairman of LimeBike. He is also the Managing Partner of Fosun Kinzon Capital. Previously, Brad was the General Manager of Tencent US Branch for 8 years, where he was responsible for strategy, investment, business development, operations, and more.

Clover: Reinventing the Health Insurance Model

9:55AM - 10:10AM

Abhishek Sharma | *Investor*

Abhishek is passionate about working with mission-driven founders who are aiming to build transformational companies in technology and healthcare. Abhishek has been an entrepreneur and business builder prior to joining Nexus. He co-founded HelloIntern.com, a marketplace for internship search. Most recently, he worked with eBay on partnerships with marketing technology startups.

Clover Health

HealthTech
cloverhealth.com

Clover

Summary

Clover Health is a unique health insurance plan focused on driving down costs and producing improved health outcomes. The company's health insurance platform utilizes patient-centered analytics and a dedicated care management team to identify potential risks and directly provide preventive care, enabling patients and their health care providers to reduce avoidable spending and identify and better manage chronic diseases.

Funding

Clover Health raised \$165M of Series C funding led by Greenoaks Capital. Other notable investors include Sequoia Capital, First Round Capital, Social Capital, AME Cloud Ventures, Spark Capital, and Arena Ventures.

Speaker Biography

Kris Gale
CTO

Kris Gale is a recognized leader in building and scaling engineering teams and was part of the founding engineering team at Yammer. During his six years there as vice president of engineering, he helped grow Yammer's engineering organization from three people to over 200. Kris also spearheaded the platform's direction and ensured its ability to scale, culminating in its acquisition by Microsoft in 2012.

MedGenome

Gene Research
medgenome.com

Summary

MedGenome is a genomics-driven research and diagnostics company with a mission to improve global health by decoding the genetic information contained in an individual's genome. MedGenome has a CLIA / CAP certified Next Generation Sequencing (NGS) lab in Foster City, CA and offers NGS Informatics services along with sequencing services. They offer high-throughput solutions in Cancer Immunotherapy for tumor microenvironment analysis and neo-epitope prioritization and work with pharma, biotech and academic institutions.

Funding

MedGenome has raised \$4M as part of Series A from angel investors and PE funds. Series B was led by Sequoia Capital for \$20M.

Speaker Biography

**Sam
Santhosh**

Chairman & CEO

Sam is an investor and mentor for many companies and is currently a board member at Impelsys Inc, New York, ePay Healthcare, San Francisco, SciGenom Labs, Cochin, Emerge Ventures, Singapore and the Centre for Commercialization of Antibodies (CCAB), Canada. Earlier, he was the CEO and MD of California Software Limited (Calsoft) from 1992-2012. He founded Calsoft in 1992 and under Sam's vision Calsoft rapidly grew from a niche player in the Silicon Valley to a global player with over 1200 employees and presence in 8 countries.

Docent Health

Healthcare

docenthealth.com

Summary

Docent Health's mission is to help health systems build and retain lasting patient relationships. We are combining best practices from other industries to help health systems deliver the vision of customer-centric care by combining cutting edge consumer technology, retail based strategic marketing, and hospitality inspired service excellence with deep provider experience to increase customer lifetime value and grow market share.

Funding

Docent Health raised 2.1 million in a seed round in November 2015, and subsequently raised 15 million in Series A in July 2016. Investors in both were NEA, Maverick Capital, and Bessemer Venture Partners.

Speaker Biography

**Geoff
McHugh**

CCO

Geoff is currently the Chief Commercial Officer of Docent Health, a venture-backed firm focused on improving the health system customer experience by supporting, through a technology-enabled service, the longitudinal patient journey. Prior to joining Docent, Geoff served as Managing Principal at the Advisory Board Company, a healthcare research, consulting, and technology firm. While at the Advisory Board Company, Geoff led partnerships with Intermountain Healthcare, Banner Health, Dignity Health, Stanford Health Care, and Cedars-Sinai Health System.

Fireside Chat: Collective Health

10:30AM - 10:45AM

Scott Nolan | *Partner*

FOUNDERS FUND

Scott Nolan is a Partner at Founders Fund, where he focuses on investments in technology-driven companies across sectors including energy, biotechnology, aerospace, healthcare and advanced manufacturing. Scott is a board member at CollectiveHealth, Tachyus, Tribogenics and two other companies currently in stealth mode.

Collective Health

Healthcare

collectivehealth.com

Collective Health[®]

Summary

Collective Health gives companies a smarter way to provide healthcare coverage through technology. Powered by a platform that connects and administers the entire benefits ecosystem — health plan, benefits programs, spending accounts, employee support — their solution delivers an effortless experience for everyone. With holistic intelligence at the heart of both client partnership and compassionate, concierge-level member services, we ensure benefits teams get the most out of their investment while taking better care of their people.

Funding

The company raised \$81 million in Series C venture funding from lead Google Ventures on October 20th, 2015. Founders Fund, New Enterprise Associates, Redpoint Ventures and Maverick Capital also participated in the round.

Speaker Biography

Ali Diab

Co-Founder & CEO

As Collective Health's CEO, Ali brings more than 15 years of technology startup and executive management experience to the company. Ali also brings a strong personal motivation to improve the quality and cost of company-sponsored health care after experiencing a major health problem while employed at a growing technology company.

RealtyShares

FinTech

realtyshares.com

Summary

RealtyShares is a real estate crowdfunding platform designed to simplify real estate investments. The company's online platform is transforming the real estate landscape by connecting borrowers and sponsors of debt and equity capital from accredited and institutional investors, across an array of financing products enabling investors to browse investment opportunities, perform due diligence, invest online and have 24/7 access to an investor dashboard to watch how their investments are performing.

Funding

RealtyShares is backed by notable investors including Union Square Ventures, General Catalyst Partners, 500 Startups, and Menlo Ventures.

Speaker Biography

**Nav
Athwal**

CEO

Nav has over a decade of experience in real estate as an attorney, broker, and investor. Nav lectures at UC Berkeley Law School and the Haas School of Business, is a frequent contributor to Forbes, and is often featured on CNBC, Bloomberg and Fox Business. He holds a JD from UC Berkeley Law School where he was class Valedictorian.

Summary

Embroker is a tech driven commercial insurance company that's radically improving how businesses buy and manage coverage. By leveraging a free online technology platform, data, and the expertise of a team of experienced commercial brokers, Embroker delivers better outcomes. They offer businesses with tools to understand and navigate risk and empowers them with the information needed to make insurance decisions.

Funding

Embroker raised a \$12.2M Series A round led by Canaan Partners. Nyca Partners, XL Innovate, Bee Partners, FinTech Collective, Vertical Venture Partners, and 500 Startups also participated.

Speaker Biography

**Matt
Miller**

Founder & CEO

Matt Miller writes and speaks frequently on insurance technology and innovation and is recognized as one of the key thought leaders in the space. He previously worked in private equity for Hellman and Friedman and Bain Capital and served on the boards of Hub International, Applied Systems, and Renaissance Learning. He graduated from Duke University, and earned an MBA from the Stanford Graduate School of Business, where he was an Arjay Miller Scholar.

Veem

Formerly known as Align Commerce

FinTech

veem.com

Formerly Align Commerce

Summary

Veem is a next generation platform for business to business payments. They enable businesses to send and receive payments in local currency via a simple and inexpensive manner by using their unique multi-rail technology across several global networks.

Funding

Veem has raised a \$25M Series B round led by National Australia Bank Ventures, with participation also from Google Ventures, Softbank's SBI Investment Co., Ltd., Kleiner Perkins Caufield Byers, and Silicon Valley Bank.

Speaker Biography

**Marwan
Forzley**

Co-Founder & CEO

Marwan Forzley is the Co-Founder and CEO of Veem (formerly Align Commerce) -a next generation platform that simplifies global business payments by using their unique multi-rail technology. Prior to Align Commerce, Forzley founded and served as CEO of eBillme, an online payments solution that extended online banking to the merchant's checkout process.

The Crossroad of Cross-Border Sino-US Tech Investment

11:15AM - 11:30AM

David Chen | *Chairman*

David Chen is co-Founder and former Vice Chairman & President of VancelInfo (which later merged with HiSoft to form Pactera), one of the largest China based IT services firms with more than 20,000 associates. He oversaw strategy and daily operations between 2001 and 2010. Before it went public in 2007 at NYSE, VancelInfo was backed by prominent VCs including DCM, Sequoia Capital and Legend Capital.

Jack Xu | *Managing Partner*

Jack is a pioneer in the Internet industry. As Managing Partner of Seven Seas Partners, Jack brought with him extensive experience and know-how in running start-ups and global companies to help entrepreneurs accelerate the growth of their business. Jack is the former president and CTO of SINA Corporation (Nasdaq: SINA), a leading Chinese Internet Company. Jack led SINA's technology and product operation as well as oversaw its popular social media platform Weibo (Nasdaq: WB).

The View from Silicon Valley

Fosun Group has \$150B Asset under management, and through its insurance & multi-industry business, generates over \$20B investible assets each year for deployment. Ying leads Fosun's high-tech investments in the US, including FinTech, pioneering technology, digital health, and consumer internet.

Fireside Chat

1:20PM - 1:40PM

Hans Tung | *Managing Partner*

Hans Tung joined GGV Capital in 2013 as a managing partner to focus on consumer mobile internet, cross-border ecommerce, IoT, and mobile social communication investments in both China and the U.S. Hans was one of the earliest investors in, and a former board member of, Xiaomi.

Peter Hebert | *Co-Founder & Managing Partner*

Peter co-founded Lux Capital with the idea that in order to have the biggest impact on the future, one should support the most scientifically and technologically ambitious ventures. In 2003, Peter led the spin-off of Lux Research. As its founding CEO, he helped build Lux Research into the leading emerging-technology research firm.

Eric Newcomer | *Startup and Venture Capital Reporter*

Eric Newcomer covers privately held, venture-backed technology companies for Bloomberg -- in a word, startups. In particular, he tracks Uber, Lyft and Airbnb. He's written about startups trying to get into gas delivery, DNA printing and international freight-forwarding. He's dug into Dropbox and Zenefits for Businessweek and made many appearances on Bloomberg West. Before joining Bloomberg, he was the first employee at The Information. He broke the news that Amazon planned to acquire Twitch -- a \$1.1 billion acquisition.

Summary

Founded in 2014, Mighty AI delivers the human insights artificial intelligence (AI) engines need to see, hear, talk and “think” like people. Their Training Data as a Service™ platform helps companies get the accurate, high-quality datasets they need to train and scale their computer vision and natural language models.

Funding

Mighty AI has raised a total of \$27.25M since our founding in 2014. Mighty AI's investors include Accenture Ventures, Foundry Group, GV, Intel Capital, Madrona Venture Group and New Enterprise Associates.

Speaker Biography

**Matt
Bencke**

Founder & CEO

Matt is an entrepreneur and operations leader who drives new business and product strategies. He has accrued strong successes across technology, business development, design, e-commerce and manufacturing in his 20+ year career. His passion is attracting great talent, fostering a meaningful team culture and taking performance to new levels. He has created, advised, led and grown businesses ranging from several millions to several billions in annual revenue.

Fireside Chat: Within

1:50PM - 2:05PM

Lucas Matney | *Writer*

Lucas Matney is a Writer at TechCrunch covering all of the startups and major players in the virtual/augmented reality space. He's particularly interested in startups tackling input and optics on the VR/AR hardware side as well as UI/UX design and mapping on the software side. He's also a big fan of headphones/home audio and random well-designed gadgets.

Within

AI
with.in

Summary

Within is an online platform for creating and distributing innovative, entertaining, and informative story-based virtual reality. Within supports all major headsets, including Oculus Rift, Samsung Gear VR, HTC Vive, Sony Playstation VR, and Google Daydream. Within collaborates with companies including Apple, The New York Times, NBC, Vice Media, and the United Nations.

Funding

Within raised a \$12.56M Series A round from lead investor 21st Century Fox. Investors also include Andreessen Horowitz, Raine Ventures, WME, Live Nation, Vice Media, Tribeca Enterprises, Annapurna Pictures, Legendary Pictures, and Freelands Ventures.

Speaker Biography

Drew Larner
COO

Drew Larner is currently the Chief Operating Officer of Within. Prior to joining Within, Drew Larner served as CEO of Rdio, a global music streaming service, and remains as Vice-Chairman of the company. Mr. Larner has 20 years of experience in entertainment, media, and international content distribution. Mr. Larner has also spent 12 years as an executive in the motion picture industry, most recently as Vice President at Spyglass Entertainment Group.

From Smart Homes to Smart Cities

2:05PM - 2:20PM

Vanessa Larco | *Partner*

Vanessa Larco joined NEA as a Partner in 2016 and focuses on enterprise and consumer investing. Prior to joining NEA, she was the Director of Product Management for web and mobile apps at Box where she worked on building the next generation of productivity apps. Her passion for design and analytics stems from her experience in the gaming industry, which includes leading the Speech Recognition Experience team at Xbox Kinect, and building and running a top grossing gaming studio at Disney Social.

Placemeter

AI
placemeter.com

Summary

Placemeter is an urban intelligence platform that quantifies modern cities worldwide. Their platform leverages proprietary computer vision technology to make sense of both archival and live video streams. First, Placemeter detects hidden patterns in pedestrian and vehicular traffic and then predicts how those patterns will evolve over time. It uses public video feeds and computer vision algorithms to create a real time data layer about places, streets and neighborhoods. The result is stronger businesses, safer streets and highly innovative neighborhoods.

Funding

Placemeter was acquired by Netgear on December 16, 2016.

Speaker Biography

Alexandre Winter
Founder & CEO

Alex is both a computer vision geek and a repeat tech entrepreneur. Born and raised in France, a proud Brooklynite today, Alex is the CEO and founder of Placemeter. Prior to placemeter, Alex co-founded LTU Technologies, a venture backed startup, pioneer in large scale image search by content. As a CTO then CEO of the company, Alex helped bring LTU to profitability in three years. LTU was successfully acquired by a Japanese company listed on the Tokyo Stock Exchange.

AI Trends & Investments in 2017

2:20PM - 2:55PM

John Mannes | *Writer*

John Mannes writes about machine learning and AI for TechCrunch. He maintains a longstanding interest in the venture capital funding landscape and the ways in which it incentivizes macro innovation. His work has also been featured in The Washington Post and Education Week.

Adam Goldberg | *Partner*

Adam focuses primarily on investments in enterprise infrastructure, big data/analytics, datacenter technologies, and artificial intelligence. At age 13, Adam enrolled as a full-time student at UC Berkeley, where he studied pure and applied mathematics and conducted research in number theory and machine learning. Prior to Lightspeed, he was an early product manager at Rubrik (a Lightspeed portfolio company) where he launched a product line.

Scott Frederick | *Development Partner and Head of Federal*

Scott leads business development and corporate development initiatives across NEA's portfolio. He also heads the firm's Federal government initiatives. In these roles he works closely with NEA's portfolio companies, providing tactical and strategic advice and connecting them to companies, thought leaders, regulators, government officials and policy influencers to help drive growth and optimize outcomes. He likes to describe his role as connecting people, companies and ideas.

AI Trends & Investments in 2017

Chris Nicholson | *Co-Founder*

Chris Nicholson is co-founder and CEO of SkyMind, the company behind Deeplearning4j, which is the most popular deep-learning framework for Java. SkyMind is Cloudera for AI, and has the backing of Tencent, Y Combinator and SV Angel.

Paxata

Enterprise
paxata.com

Summary

Paxata provides an Adaptive Information Platform that enables business leaders and analysts with an enterprise-grade, self-service data preparation system to support the on-demand and ad-hoc business data needs for analytics, operations and regulatory requirements. Business analysts work within an intuitive, visual application to access, explore, shape, collaborate and publish data with clicks, not code, with complete governance and security.

Funding

In October 2016, Paxata announced a 4th round of investment from strategic corporate investors. The funding was led by Intel Capital, along with new co-investors Microsoft Ventures, Cisco Investments, Deutsche Telekom Capital Partners and AirTree Ventures, as well as existing investors, Singapore-based EDBI, In-Q-Tel and Accel.

Speaker Biography

**Prakash
Nanduri**

Co-Founder & CEO

Prakash Nanduri is a seasoned entrepreneur and enterprise software visionary with over 20 years experience in both start-up and large companies. He was the Co-Founder and VP of Velosel Corporation (acquired by TIBCO, 2005), a pioneer of the Master Data Management (MDM) space. At Velosel, he drove the strategy and growth of the company, securing over \$40 Million in venture capital financing, recruiting a senior management team, and serving on the Board of Directors.
